Description

2023 Lamborghini Huracán STO, VAT Qualifying Nero Helene over Blu Amon – Full Carbon – Delivery Mileage The Huracán STO needs no introduction. It's the fastest and most focused Huracán ever built: rear-wheel drive, naturally aspirated, and directly descended from Lamborghini's GT3 race programme. The naturally aspirated 5.2-litre V10 was reworked specifically for the STO, producing 631bhp with sharper throttle response and a broader torque band than

earlier Huracán models. More than 75% of the body panels are forged from carbon fibre, and the braking system is derived from Lamborghini's endurance racing programme. The STO also features rear-wheel steering, manually adjustable aero, and telemetry tools integrated into the onboard system. In testing, it lapped the Nürburgring in 6min 55sec, eclipsing the McLaren P1 hypercar. 0-62mph is dispatched in 3.0sec, with a top speed of 193mph – slightly reduced from the standard Huracán due to the additional downforce. This particular example is a UK-supplied, delivery mileage car finished in Nero Helene with Bianco Monocerus STO livery and a Blu Amon-accented Sportivo Alcantara interior. It's specified with the Full Exterior and Interior Carbon Packs, forged Hek centre-lock wheels, and the optional lifting system. Specification highlights 5.2-litre naturally aspirated V10 – 631bhp – rear-wheel drive Nero Helene metallic paint with Bianco Monocerus STO decals Full Exterior Carbon Pack (gloss): snorkel, louvers, fin, bumpers, diffuser, rear wing Alcantara Sportivo Bicolour interior: Nero Cosmus with Blu Amon contrast STO bucket seats with Blu Cepheus four-point harnesses 20in Hek forged centre-lock wheels in Matt Black Bridgestone Potenza Sport tyres CCMR carbon-ceramic brakes with black calipers Lifting system Rear-view camera, cruise control and Apple CarPlay®
